

The Toledo Naturalists' Association Harold F. Mayfield Research Award

The Toledo Naturalists' Association (TNA) has established a small grants award program to support research that will significantly increase our knowledge, or aid in the preservation, of Toledo area native plants and wildlife. The award is named in honor of Harold F. Mayfield, a long-time TNA member and internationally-renowned ornithologist. Each year TNA may award one or more grants of up to \$1,000 under this program. Copies of the application form are included with this letter.

Application Deadline: Applications will be accepted continuously; the awards committee will announce its decision within a month of receipt of an application.

Completed applications should be mailed to:

Toledo Naturalists' Association
Mayfield Awards Committee
19800 Sugar Creek Road
Bowling Green, OH 43402

Or they may be submitted electronically to:

Mail@toledonaturalist.org

**NOTE: the Subject bar must refer to the "Mayfield Award"
or the email attachment will not be opened!**

Award winners will be expected to report on the outcome of their research project at one of the monthly TNA meetings within a year following receipt of their award.
